

Freya Car Cover Care & Fitting Instructions

The Viking 'Freya' range of vehicle covers have been developed to bring to you the ultimate quality in stretch dust covers that are available today. Our covers utilise modern polar fleece fabrics that combines baby softness and breathability with strength and durability.

Your cover has been produced in our UK factory with care to ensure long life and protection for your car. The soft fabric protects from dust and dirt and those annoying little scratches that can occur in the garage.

Freya Car Cover Features

- * Fully breathable soft fabric to allow moisture & damp to escape
- * Super soft stretch fabric accentuates vehicle profile & lines
- * Double stitched seams for strength & long life
- * Completely non-scratch soft cover ensures maximum paintwork protection
- * Elasticated front and rear hems for snug fit with stitched in 'front' label for ease of fitting
- * Comprehensive range of cover and piping colours available
- * Contrast roofline piping, mirror pockets & roof panel colours if required
- * Washable & supplied with washing instructions
- * 100% ultraviolet resistant fabric to prevent paint fade
- * Manufactured purely to your car's specification
- * Separate generous sized sturdy zipped storage bag
- * 1 year standard warranty against faulty materials or workmanship
- * Optional accidental damage enhanced warranty available

Cover Fitting Guide

We want you to enjoy maximum life and protection from your new cover. Here are a few common sense tips to ensure that your car receives ultimate protection:

Dirt, grit & water are your cars enemies. Always ensure that you cover a clean, cool, dry car. Dirt and grit particles on paintwork can act as abrasives & will produce unsightly scratches in the paintwork.

When fitting the cover ensure that the engine heat has cooled from the bodywork, that you avoid contact with hot exhausts and that everything is cool and dry.

Aerials/radio antennas should be retracted or removed prior to fitment of your car cover. If the aerial base plate protrudes, protect the cover with a piece of polystyrene that has been hollowed out to suit.

All our covers have been designed to assist airflow around your car by use of breathable fabrics. However, if the car is kept in an environment where condensation might occur or it is subjected to a prolonged period of damp, check the condition of your car and cover on a weekly basis. Pull back the cover, inspect the paintwork and the inside of the cover and ensure that the car and fabric are completely dry. If any damp is present, the car and cover need to be aired and dried.

If you are using the cover for a long period of time we advise stretching the elastic hems on a regular basis to keep the elastic in good condition.

Best Fitting Tips:

1. Unfold the cover & locate the 'front' label that is stitched into the elasticated hem at one end of the cover.
2. Position the car cover with 'front' label on the inside over the front end of car and arrange the cover over bonnet & then along car roof.
3. Locate a mirror pocket (if fitted) and fit this to car door mirror. This will locate the cover on a fixed point of the car.
4. Fit the front of cover, other mirror pocket and finally rear of cover.
5. Special care should be taken when fitting over bonnet mascots or aerial fitting points as these may be sharp. DO NOT PULL TOO TIGHT! The cover should still be able to move freely to allow air to circulation under the cover.

Do not fit a cover to a car that has been re-painted in the last 3-6 months. Ask your repair shop for advice. (excludes new car original paint)

Keep your cover away from naked flames and sources of ignition. Store in the storage bag provided when not in use

Cover Removal & Storage

To remove & refold the cover, release the elasticated hems & fold the side panels onto the roof. Now roll the cover, pulling the folded fabric towards you. This process keeps the dirty outer away from the clean inner surface. Store your cover in the bag provided when not in use. If the cover is damp, thoroughly line dry & air before storing in the bag.

Care & Washing Instructions

Your new cover will reach you in perfect condition. However, with the passing of time it may become dusty and grubby. Your Freya cover is colourfast so can be washed and its pristine looks will return. However, care should be taken when washing and the guidelines on the washing instruction label stitched into the hem should be observed:

Hand wash in cold or hand warm water using a mild washing liquid. Take care to rinse thoroughly several times. Do not use detergents that include bleach or fabric softeners. Do not wring tightly. Line dry until completely dry. Do not iron!

Freya covers may be washed in domestic washing machines, subject to size. Select a gentle cycle with a maximum temperature of 30 degrees centigrade and use a mild washing liquid as above. Ensure several rinses and a gentle spin speed. Line dry until completely dry.

Do's

- ✓ Always fit your cover on a clean, dry car
- ✓ Allow engine, body & exhausts to cool
- ✓ Remove aerials/radio antennas & pad the base plate
- ✓ Remove cover regularly to check condition of car
- ✓ Allow cover to dry before storing
- ✓ Store in storage bag provided
- ✓ Wash in cold or warm water
- ✓ Follow washing instructions on label

Don'ts

- ✗ Use outdoors
- ✗ Fit on a newly re-painted car
- ✗ Use on a trailer
- ✗ Wash in hot water
- ✗ Dry clean
- ✗ Tumble dry
- ✗ Wring tightly
- ✗ Iron
- ✗ Fit to a wet car

If you discover bird muck on your cover you must wash it off straight away as the cover fabric may start to degrade due to the acidity of bird lime.

Following these simple guidelines will ensure that your car cover will last for many years and provide the maximum protection

Car Cover Enhanced Warranty Option (1 Year or 3 Year Cover)

Your new cover has a one year warranty against manufacturing defects or faulty materials. Accidental damage and damage caused by rodents or pests is not covered.

At Viking Covers we understand that household and motor insurers may be reluctant to reimburse you for damage sustained to car covers & consequently we offer an optional enhanced warranty ourselves.

The enhanced warranty covers accidental damage to the cover (but not to the vehicle) tears & rips caused through storm damage, sunshine damage and damage caused by pets, animals & birds. This is not an insurance policy & theft/vandalism are excluded.

This cover is designed for indoor use and damage caused outdoors is excluded from the guarantee and extended warranty.
